

ODIN Open Innovation Hub → Join Us!

ODIN Hub

We are continuously innovating-creating new technologies, products and services that inspire and excite people everywhere. Our goal is to empower the potential and expand the horizons of tomorrow's businesses and healthcare.

The Open Innovation Hub is a place where you and ODIN can interact to co-create new value by combining the needs and ideas of our hospitals with your state-of-the-art core technologies based on AI, robotics and IoT.

New value and ideas are created here to contribute to the creation of the hospital of the future.

The Open Innovation Hub is an open innovation base that aims to solve healthcare issues and to "co-create new values," while experiencing related technologies and visions under the three themes of clinical, territorial, and logistics, which are positioned as priority areas in ODIN.
