 [coordination@odin-smarthospitals.eu](mailto:coordination@odin-smarthospitals.eu)

The ODIN project is heading towards its conclusion, which is going to be celebrated in an exclusive event with presentations of the solutions the ODIN consortium has been working on for the last years. Come and participate - be it in person or online - to see what the hospital of the future might look like.

## Save the date - Final Event

### Join us at the ODIN Project Final Event:

#### Transforming Healthcare – ODIN Innovations in Action!

The ODIN team is offering you the opportunity to explore groundbreaking health technology innovations, learn about successful implementations in smart hospitals, and engage with leaders across the healthcare ecosystem.

#### Save the date

**When:** November 29, 2024, starting at 10:00 AM CET

**Location:** Madrid Innovation Hub at Medtronic premises  
Calle María de Portugal 11, 28050 Madrid

#### Agenda

- ODIN Project Introduction
- ODIN Innovations in Action
  - Challenge 1 - Logistics: Locating and transporting resources inside the building
  - Challenge 2 - Patient Care: Monitoring and tracking the clinical process for each patient end-to-end
  - Challenge 3 - Support for Diagnosis: Enhancing medical diagnosis with AI tools
  - Challenge 4 - Support for Treatment: Enhancing treatment processes
  - Challenge 5 - Disaster Preparedness: Planning for potential threats
- Round table: The vision of the hospital of the future
- ODIN sustainability strategy based on the project impact

#### Event format

**In-Person Attendance.** Join us at the Madrid Innovation Hub for a live experience. (Places are limited and will be assigned by order of registration. You will receive an e-mail confirmation if a seat is available for your attendance).

**Online Participation:** For those unable to attend in person, we will provide a live streaming option. Access details will be sent to registered participants.

Feel free to share the details also among your network!

# Recent ODIN Presentations

ODIN results have also been made available to the public on several recent occasions, like on the occasions mentioned below.

From the 24th - 27th of September, the [Charité Sleep Medicine Center](#) showcased ODIN results via a poster presentation on “Enhancing Hospital Efficiency: Robot Integration in a Sleep Laboratory” at the [27th Congress of the European Sleep Research Society](#) in Seville, Spain.

From August 26 to 30, 2024, Dr. Paweł Lewek presented the results of the ODIN project at the 33rd International [IEEE RO-MAN](#) 2024 Conference in Pasadena, USA, discussing the pan-European collaboration coordinated in Poland by the Department of Family Medicine at the [Uniwersytet Medyczny w Łodzi](#).

The project tested the potential use of an autonomous robot, designed by [Robotnik Automation](#), for transporting blood samples in hospital settings.
